

## CASE STUDY:

### Mike's Carpentry Karabetsos Residence

*Buffalo Grove, IL*

Kitchen and family room renovation - Creating a design where practicality meets sophistication!

Scope of work: A total kitchen and family room renovation which included adding a fireplace and a Dura Supreme® cabinetry mantel with a custom surround for the Karabetsos residence in Buffalo Grove, IL.

Dura Supreme cabinets with quartz countertops were added to the kitchen. New kitchen and dining room lighting accentuate the arched tile backsplash. A custom fireplace with built-in bookcases, custom mantel and built-in TV were also installed.

Mike and Ron Morley of Mike's Carpentry masterfully handled the remodeling, all custom work and oversaw the general contracting for the project.

"This project really enhanced their home, especially the kitchen. Hine's Cabinet Specialist, Jeff Topolinski, was a pleasure to work with. Jeff's product knowledge and kitchen design talents helped this project flow seamlessly."

- Mike Morely, Mike's Carpentry

Homeowner Catherine Karabetsos is ecstatic with the great job done by all. "Mike and Jeff made the project a dream...the cabinetry, countertops, fireplace and surrounds are beautiful. Everyone that comes into our home loves the work and cannot believe how stunning it looks. Thank you to Hines for a fabulous line of Dura Supreme cabinetry that perfectly captured our vision!"

- Catherine Karabetsos, Homeowner
