Project Map It

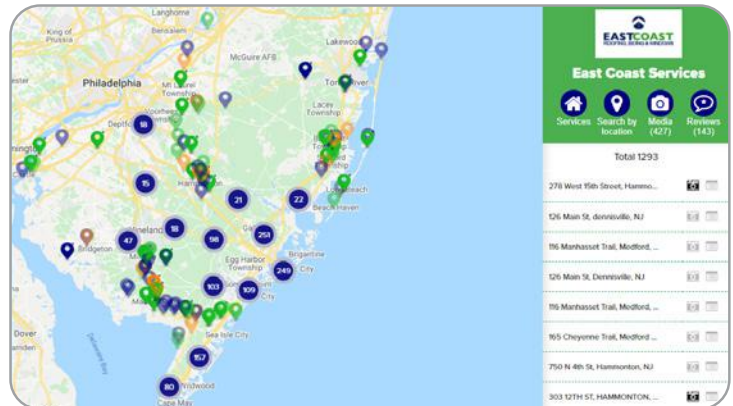

# PROJECT MAP IT

Project Map It gives you and your team the marketing tools and resources you need on the go. Showcase your portfolio, including previous project images and footage, and display customer reviews all in one place. Our digital mapping portfolio is user-friendly and requires minimal maintenance.

Easily update your portfolio and map in real-time at each job site. Upload unlimited photos, write job descriptions, and request reviews from your customers—all from a tablet or smartphone.

## A Digital Portfolio That Grows With You

Project Map It is an interactive map that showcases all your previous work and lets customers search by area, project category, or even product type. Easily embed the map on your website and show prospective customers your company's presence in their neighborhood.

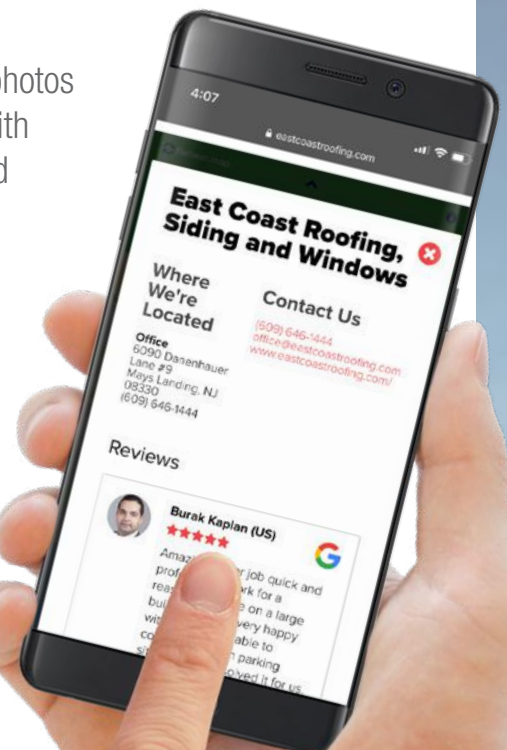

## A Picture's Worth a Thousand Words

You take pride in the work you do—it deserves recognition. The more photos you show of a previous project, the more likely a customer is to book with you. Upload unlimited project photos to your portfolio and share detailed descriptions of your work.

## Review Management Like Never Before

Scale your business and increase sales with positive reviews. Collect new reviews and display existing reviews from Google, Facebook, and Project Map It, all in one place. Send survey reminder emails and manage your reviews—right within the platform. Unlike Google and Facebook reviews, you can make Project Map It reviews private and there's no login required for customers.

## EAGLEVIEW

EagleView's aerial imagery, data analytics and property data provide detailed 3D diagrams that calculate roof length, pitch, waste calculations and additional information.

Create fast and accurate bids to stay ahead of the competition. EagleView's guaranteed, accurate roof measurement tool can increase sales closing rates and profitability through time savings and precise material ordering.

### Features & Benefits:

**Faster Bids** - EagleView reports enable you to compile fast, competitive bids. Delivered in just one hour, the report lists the number of squares and predominant pitch for a residential roof.

**Greater Profitability** - With EagleView reports, you'll receive highly accurate roof measurements and diagrams. The precise details result in more efficient material orders and production plans, leading to less waste and increased profits.

**Superior Accuracy** - Reduce material redeliveries and increase gross profit.

**Professional Estimates** - Reports are delivered with a customizable cover page at no additional costs. Present customers with estimates in a professional document that showcases your company's name and logo.

**Increased Wins** - Contractors who use EagleView reports win more bids and have higher closing rates.

Receive a discount by ordering your EagleView reports through Hines Supply. Save additional time by calling or texting the job site address to your sales rep. Hines Supply will order the EagleView report for you and the cost will be added to your account.

# STORM RESPONSE

## DO YOU KNOW THE CODE?

There are key questions every contractor should have answers to. Your potential project can go from a simple repair to an entire roof replacement.

### Key Questions:

- What qualifies as storm damage?
- How do I navigate with the insurance company?
- Why repair and miss a 25 year opportunity when I can replace?
- Were the laminate shingles installed prior to 2010?
- Does this repair require a code upgrade?
- Are there granule loss issues at points of impact?
- Are there cracks in the granule-asphalt surface?
- Can I see exposed fiberglass mat?
- Is the self-seal integrity loose?
- Are there multiple missing shingles?

### Resources:

Roofwriter.com

Roofwriter is very simple roof estimating tool that uses Xactimate. All you need to do is submit your choice of aerial measurement platform via email, answer a few quick questions and bang, you got an estimate for \$99.00 in a matter of minutes. Ready to use.

SupplementPro.com

Finally, a full service boutique estimating service that uses Xactimate and not an estimating mill. With Supplement Pro, you actually get a full estimate with codes and manufactures bulletins which is written by strict code of do it right or don't do it.

Supplement Like a Pro

One of the nations best, real life Xactimate training, Supplement Like a Pro is taught by an industry leader who shares secrets of how to write. You no longer need to use the antiquated methods taught in the past. Bring your computer and write in the program during training. The classes are offered throughout the country or if you choose, they can come straight to you.
